

Arm your child with Self-Esteem and give your child a head start in life

- Is your child armed to succeed in life?
- To do well in school?
- To stay clear of drugs?
- To develop physically and mentally to maximize their unique potential?

Children that attend Barton's are destined to succeed in life because we teach them about **goals**, **self-esteem**, **discipline** and **perseverance** at an early age.

Our instructors take time to give each child personal attention. By doing this we can address each individual's unique personality and needs. This truly sets our Karate instructors above the rest and our teaching excellence makes the most of each child's experience.

The traits children learn in our unique program will pay off for the rest of their lives!

Teach your child to spot and avoid danger

While we wish it were not even a factor, the fact remains that we live in a world full of undesirable people. Karate can teach your child how to **spot and avoid** danger. We prepare them for possible emergencies and, if necessary, how protect themselves from danger. These invaluable skills will not only increase confidence in themselves but may even save their lives.

Best of all your children will have FUN while they learn.

Barton's offers the keys to long term success in a comprehensive, fun and exciting environment! Our carefully structured dojo will help your child develop physically, mentally and socially. Because your children will be surrounded by others with similar goals and aspirations, they will develop positive friendships and **healthy peer groups**.

Armed with high self-esteem, your child can achieve anything!
